About Me:

I am a creative UI Designer & UI Developer. Interested in building something that is meaningful for the end clients and consumers. Want to be a part of something that helps mass change. Seeking the right platform and the right partner to embark on this journey for me, my career and personal development

Work Experience:

Ksolves — Senior UI/UX Designer
25th Jun 2024 – Present

- Designed the DFM (Data Flow Manager) application from scratch, designing the entire interface with a more intuitive and user-friendly experience compared to NiFi, and created detailed prototypes and wireframes backed by thorough research.
- Designed the Mind AI Ninja application, focusing on enhancing usability, workflow efficiency, and overall user engagement.
- Revamped the Dashboard Ninja interface, improving visual hierarchy, data visualization clarity, and navigation for a more seamless user experience.
- Contributed to the design and enhancement of multiple Odoo-related products, ensuring consistent UI/UX standards and aligning with the Project requirements.

Solultima Pvt. Ltd. — UI/UX Designer & UI Developer
9th Aug 2021 – Present

- Designed and developed interactive, high-fidelity prototypes for various launchpads and crypto projects, delivering fully functional websites and web applications tailored to project requirements.
- Created detailed wireframes and high-fidelity UI designs for web and mobile app interfaces for projects including Yug Network and FVBank.

Orgzit — UI Designer & UI Developer
6th April 2020 – 6th August 2021

- Designed interactive, high-fidelity layouts for the company website aligned with business requirements.
- Created wireframes and high-fidelity designs for both web and mobile applications.
- Developed new product features based on finalized designs and enhanced the UI/UX of existing features for better usability.
- Styled and optimized Orgzit's mobile application interface using React Native.

Quillhash Technologies — UI Designer & UI Developer
28th May 19 – 30th March 2020

- Designed interactive, high-fidelity website layouts tailored to company requirements.
- Developed website projects based on finalized designs, ensuring pixel-perfect implementation.
- Designed and developed multiple product- and service-based websites, as well as contributed to product UI/UX design.
